OS: Linux, Windows, macOS, VirtualBox, VMWare

I love Videogames. Playing or making them. I just graduated with Honors from the **Master in Video Game Development** by the Complutense University of Madrid and I am starting my professional career in the Videogames Industry. **Graduated in Computer Engineering**, I've been working in Software Companies from Madrid and Santiago de Compostela

EDUCATION

09/2019 – 10/2020 – Madrid, Spain
Master in Video Game Development with Honors
Complutense University of Madrid

The goal of the Master is to specialize IT Engineers in Professional Videogames Programming

The Final Master Project consisted in developing of a PC Videogame as part of a team of 20+ people, divided in 5 specialized departments and using Unreal Engine 4, C++ and Blueprints. The final result can be seen here

My performance in the master was evaluated with a 10 (with Honors)

09/2013 – 02/2019 – Santiago de Compostela, Spain
Computer Engineering Degree
University of Santiago de Compostela

Knowledge in Mathematics, Programming, Software Design, Computer Engineering, Software Engineering, DBs, Networks, Artificial Intelligence, Graphic Computing…

The Final Degree Project consisted in a native Android application for the empowerment of patients for the Galician public health system. The app was divided in a medical file, a section of surveys, a calendar and a chat, all of them configurable and controllable by the doctor. All the learning (Kotlin, Android & Android Studio) was done independently

The final result was evaluated with a 9'3

WORK EXPERIENCE

04/2019 – 02/2020 – Madrid, Spain
Software Engineer
Expleo Group

Maintenance of an application for the management of automatic operation of railways for the international company Siemens. Installed internationally in several lines of subway. Telework one day a week

03/2018 – 01/2019 – Santiago de Compostela, Spain
